GR

I terminali dei cilindri sono snodi sferici in fusione.  
I cilindri sono costruiti per reggere  
i picchi di alte pressioni  
che si verificano durante il lavoro.  
The cylinders are provided of founding ball joints.  
The cylinders are built to hold  
high pressure during the work.

L'unica della categoria  
con doppia biella!  
The only one  
with double connecting rod!

Tipo di attacchi disponibili  
Type of link
